

AFRICAN FAMILY HEALTH ORGANIZATION

OUR MISSION

To address an unmet need among members of the African and Caribbean immigrant and refugee communities in the greater Philadelphia area who experience difficulties accessing health, education, and human services due to cultural, geographic, linguistic, and other barriers.

OUR VISION as told by Founder, Tiguida Kaba

AFAHO is truly innovative in its approach. We are there to help people with the issues that they have - whether it is seeing a doctor, not working, and not knowing how to read and write. AFAHO addresses the entire issue at hand - one stop shop. We are unique in our ability to transform the human condition of our community members. We are truly a family and see our clients as a part of an extended family.

GET INVOLVED

AFAHO faces several key barriers in supporting youth, including a lack of staff for one-on-one case management, limited space for activities, and inadequate transportation for participants. Additionally, displaced youth struggle with housing, and many face challenges accessing post-secondary aid due to their immigration status.

With your support, we can continue to provide life-changing services and resources to the African and Caribbean communities in Philadelphia. Please visit our website for volunteer and donation opportunities.
