OUR PROGRAMS & SERVICES

At Unique Dreams, we provide a range of services to support and empower youth, families, and the community. Our programs include after-school tutoring, educational mentoring, career development, leadership training, and mental health services. We also offer summer enrichment programs, family engagement activities, and workshops that promote personal growth, life skills, and academic achievement. Each of these initiatives is designed to foster a supportive environment where young people can thrive, achieve their goals, and build strong connections within their community.

No Weapons Formed Program

At Unique Dreams, our No Weapons Formed program supports both youth and returning citizens through mentorship, court advocacy, workforce development, and case management. For youth ages 14-17 enrolled in CERC, we offer mentorship, court support, and workforce workshops.

Returning citizens involved in Re-entry Court, particularly those aged 18+ being released from treatment or on probation or parole, receive case management and developmental workshops. We also provide temporary housing assistance for qualifying participants and offer resources for youth, families, and the community to foster growth and stability.

Our goal is to create a holistic, web-based approach to providing programs, services, and support for youth and families facing hardships such as mental health crises, housing and food insecurity, and navigating complex systems.
